

## What are your priorities for Hanford Cleanup in 2008?

***Tank Farm Retrieval***

***Demolition of a former fuel manufacturing facility***

***Topping off the Low-Activity Waste Facility***

Each year the U.S. Department of Energy (USDOE) Office of River Protection (ORP) and Richland Operations Office (RL) are required to prepare an annual budget submittal that is consistent with the Hanford Federal Facility Agreement and Consent Order, also known as the Tri-Party Agreement (TPA), and meets regulatory requirements. The TPA is the regulatory framework between the USDOE, Washington State Department of Ecology and the U.S. Environmental Protection Agency that guide's cleanup at the Hanford Site.

USDOE is currently working to the 2006 allocated budget. The President released the 2007 budget request to Congress this past spring. Based on 2006 and 2007 budget information and identified cleanup activities, USDOE is formulating its Fiscal Year (FY) 2008 budget requirements for Hanford.

The Tri-Party Agencies recognize how important Hanford cleanup is to our communities and wants to hear the public's input. A public meeting will be held to discuss and obtain input from you on cleanup priorities which will be provided to USDOE-Headquarters to be considered in the development of our FY 2008 budget requests. **Please join us on:**

**Thursday, June 29, 2006  
Oregon State Office Building  
800 NE Oregon, Portland, Oregon  
Open House 5:30 p.m. – 6:30 p.m.  
Meeting 6:30 p.m. – 9:00 p.m.**
